CLASSIFICATION SECRET

SECRE 25X1 3. Prior to 27 December, the Reuss Kaserne in Gera was occupied by an estimated 2,600 troops wearing red-bordered black epaulets with artillery, motor transport and AT insignia, and by about 200 troops wearing black-wordered crimson epaulets. At 9:30 a.m. on 21 December, about 2,200 troops were lined up in the barracks yard to hear a speech by an officer. At 11:30 a.m. on 27 December, about 200 soldiers wearing black-bordered crimson epaulets entered the installation. On 24 December, about 800 troops wearing red-bordered black epaulets, including some with artillery, motor transport and AT insignia, were seen receiving field training and training in firing on Galgenberg and Steinertsberg (hills) and on Dornaer Landstrasse. 25X1 25X1 From 29 to 31 December, trucks 25X1 bauled briquettes from the freight station to the Panzer Kaserne in Tinz. On 2 January, 10 groups each consisting of 1 officer and 10 EM were seen training with rifles and range finders and aiming practice with pistols and rifles near the installation. From 4 to 10 January, similar groups were daily seen at field training and training with weapons. The EM wore red-bordered black epaulets, some with tank insignia. At about 3 p.m. on 8 January, trucks occupied by 10 officers 25X1 with tank insignia and 6 MM wearing red-bordered black epaulets, and loaded with baggage went to the station. The trucks returned empty. Ambular.ce and truck were seen en route to the instal-25X1 lation. On 10 December, 9 prime movers, 25X1 trucks 1 boxcarload of equipment and about 30 officers and MM wearing red-bordered black epaulets were loaded on 11 flatcars with sideracks and 1 boxcar. Troops and material came from the Reuss Kasarne. The train left at 1:24 p.m. toward Leipzig-Plagwitz. 4 1. Comment. According to a pravious report 25X1 the motor pool at 107 Wiesen Strasse, on 7 December 1952, was still occupied by the small detail wearing black-bordered black epaulets. 25X1 The occupation of this installation by VPs is reported for the first time. 25X1 Comment. The Reuss Kaserne appears to be occupied as previously by all the elements of the 308th Arty Frig (US) of the XXVIII Gds Mtz Rifle Corps. In addition to the brigade, a guard unit of about 200 men wearing black-bordered crimson epaulets may also be stationed there. 25X1 Comment. The assumption that a repair shop unit from Glauchau had been transferred to the barracks installation in Gera-Tinz in early December 1952 is only an assumption. However, the motor vehicles observed at this installation were previously reported from Glauchau, but the activities of the unit stationed in the barracks installation Gera-Tinz do not indicate a repair shop. The unit concerned may be an instruction unit. Comment. The shipment of a unit of the 308th Arty Brig (US) toward 25X1 Leipzig-Plagwitz, that is in a northern direction, may have gone to the Altengrabow troop training grounds for firing practice.
